## *Beautiful Lies*

'**Ugly Truth, Beautiful Lies?**' is the third solo album from singer/songwriter **Alan Fennah**, founder member of the UK band *Alternative Radio*, which formed in 1982. The band signed to EMI's Parlophone record label in 1983. Since then, the band have released several albums and singles in the UK.

**Ugly Truth, Beautiful Lies?** is written, produced and performed by Alan Fennah.

Alan said: *"After completing my second solo album, 'Wanderlust' in 2021, I had several songs still left unfinished. By the time these songs had been recorded, I had written several more - before I realised it, I had another album of 10 new songs.*

*This third album has a rockier feel than my last album. 'Wanderlust' was more laid back and had a more acoustic ambience. U.T.B.L. has a harder edge to it. Its themes are more sociopolitical too. This was unintentional, but I have obviously been influenced by world events that have been going on since 2021! There are some softer ballad's in there like 'How Time Flies' and the Motown-influenced 'I Can't Get Over, She's Over Me' but overall it's a rock album. The album title is taken from a line in the song 'Shifting Sands' (track7)."*
